

Inspiring Beautiful Furniture

& Furnishing Comfort Quickly

LET'S DESIGN

BUY FOAM

Mattress Foam, Furniture Foam, Industrial Foam

Our Focus on Fabricating Foam

Better Pricing

Being the largest independent fabricator in Canada, we negotiate the lowest raw material prices and pass the savings down to you.

Our focus on fabricating (not pouring) is a key advantage. Chemical prices can vary, but we are not reliant on any one source of foam.

We buy from all the major foam manufacturers. And, we use our buying power to source the best prices.

Wider Range

This independence also gives us a wider and higher quality product range than any other foamer in Canada.

Not all foam is equal. Some foam manufacturers have extremely old production lines, impeding their ability to produce certain grades well. In these cases, we compare quality across suppliers, and only choose the best foam for our customers.

Faster Service

Our operators have been cutting foam for over 15 years. Their speed & efficiency translates to better service & pricing for you.

In addition, in 2015, we outfitted our facility with completely new computerized machinery, delivering Foamco a slew of new capabilities. We can now QUOTE, DESIGN, SAMPLE, PRODUCE & DELIVER foam faster than anyone in the market.

DOWNLOAD BROCHURE

Mattress Foam

We carry a variety of mattress foam that can be used in the core, as a topper or in the quilting. We can cut the foam to your custom sizes using our automated horizontal and vertical cutting line.

Furniture Foam

Have a unique cushion construction? We specialize in cutting uniquely shaped foam parts, and gluing them together into individual cushions or kits. We can work with anything you give us: a paper pattern, a photograph, a DXF file, or a foam sample.

Packaging & Industrial Foam

Whether you need to protect delicate cookies, industrial building docks, or your ear-drums, we have your industrial solution. We'll help you find the right design to keep your product, building, or ears safe.
